DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20-22, 26, 27, 30-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Hein (6,375,562). See fig. 5, col. 4, lines 39-56. Regarding claims 22 and 23, the entire apparatus is considered the broad term “door”. Regarding claims 30-32, see col. 4, line 45. Regarding claims 35 and 36, see col. 4, lines 57-67.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim(s) 23-25, 28, 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hein. Hein discloses all of the limitations of the claims except for the type of door. However, since the applicant has failed to establish any criticality or synergistic results which are derived from the recited configurations, these limitations are considered a matter of obvious design choice. Thus, the applicant's design configurations would have been an obvious improvement to one of ordinary skill in the art with regard to the apparatus disclosed in Hein.

Art Unit: 3749
